SUMMARY

Enterprise AE with 6+ years of quota-carrying success in technical SaaS — AI infrastructure, endpoint security, and enterprise platforms. Consistent top performer: Jamf Pinnacle Club 2023 (112% quota, top 5% globally), #2 of 22 AEs at Staffbase (97% of \$690K quota), and 100%+ attainment four consecutive years. Self-sourced \$3M+ pipeline across last two roles with zero SDR support. MEDDPICC practitioner, Challenger-trained, full-cycle hunter specializing in net-new logo acquisition into multi-stakeholder enterprise buying committees (CISO, CIO, VP Engineering, Procurement). AI-forward operator: built and deployed LLM-powered GTM tools — buyer-signal scoring, MEDDPICC deal-qualification automation, rep coaching — used daily in active deals.
